Essaouira, Marrakech

📊 Experience

CIH Bank
Financial Operations Coordinator

2019 – 2023
Essaouira, Marrakech

> Managed and coordinated financial operations, ensuring compliance with banking regulations and policies.
> Oversaw financial transactions, including deposits, withdrawals, and fund transfers, with a focus on accuracy and efficiency.
> Collaborated with cross-functional teams to optimize financial processes and resolve customer inquiries.

Mogador Accounting
Accounting Intern

2018
Essaouira, Marrakech

> Gained practical experience in accounting principles and financial analysis during a 6-month internship.
> Assisted with financial data entry, reconciliation, and the preparation of financial reports.
> Collaborated with senior accountants to support clients in managing their financial records.

⚗ Some of my projects

Real Estate Website (Next.js, TypeScript, Tailwind CSS)

> Developed a web application allowing users to browse, reserve, and add houses to their favorites.
> Implemented admin functionality for managing properties and user roles.
> Utilized TypeScript, Next.js, Tailwind CSS, MongoDB, and Prisma for building and managing the project.
> Integrated OAuth authentication with Google and GitHub for user authentication.

Crypto Tracker (API Practice)

> Created a real-time crypto tracking application to gain experience with API integration.
> Utilized crypto APIs to fetch and display real-time cryptocurrency data.

Movie Trailer Website (Web Development Practice)

> Initiated web development journey with a movie trailer website project.
> Built a user-friendly platform for users to explore and watch movie trailers.

Buy Me Tea (Express.js/Node.js, Payment API Practice)

> Developed a project inspired by "Buy Me Coffee" to practice Express.js and Node.js.
> Focused on familiarizing myself with payment APIs, including Stripe integration.
